**Completed this section for New Water Connections only:**

Requested water activation date: \_\_\_\_\_

For new water connections, submit sketch plan with preferred service location. Please include the following with measurements:

- Property lines - Building location(s)
- Driveways or hard surfaces - Service lines from property line to water main
- Water service lines within property boundaries - Designate North
- Sanitary system / service offsets - Other utilities
- Street name(s) - Service connection offsets from front property line

Please complete Sketch on Template on next page.

**SKETCH**

**Notes:**

- All new and changes to water services are subject to requirements stated in the current Water Bylaw, including metering and cross-connection (backflow) control.
- The Wynndel Irrigation District is responsible to install Water Connections from the water main to the property line at the property owner's expense.
- Installation dates requested by the Owner will be confirmed by the Wynndel Irrigation District.
- A cost estimate for the work and a conditions letter will be provided by the Wynndel Irrigation District.
- The property owner will be required to sign a Work Order before the Wynndel Irrigation District proceeds with the work.
- The property owner will be invoiced for actual costs plus 20% mark-up for Administration on materials, equipment and contracted services.
- Properties may be subject to a capital infrastructure charge or water extension fee as identified in the current Utilities, Rates, Fees and Charges Bylaw.
- The property owner is responsible for all water service work on private property.
- Connection to the water main or curb stop shall be done only under the direct supervision of Wynndel Irrigation District personnel.
